Workshop on Bioactive Ingredients in Infant Formula

.....

*Exploring the Science Surrounding the Safe Use of
Biologically Active Ingredients in Infant Formula:
Considerations for an Assessment Framework.*

September 23 & 24, 2021

[Register Now](#)

This 2-day, virtual workshop—[Exploring the Science Surrounding the Safe Use of Bioactive Ingredients in Infant Formula: Considerations for an Assessment Framework](#)—focuses on the state-of-the-science on the functional aspects of biologically active human milk components. This workshop will feature scientific sessions on both days, on the following topics:

- Normal infant developmental outcomes
- Relevant insights from the Breastmilk Ecology: Genesis of Infant Nutrition (BEGIN) Series
- Human milk as a reference for bioactive ingredients
- Consideration of interactions between bioactive ingredients during processing or via the matrix
- Functional equivalence of bioactive ingredients from different sources
- Consideration of interactions between bioactive ingredients and other components

Additionally, workshop participants will have the opportunity on both days to ask questions of the speakers as well as discuss next steps on the final day.

Sponsor/Co-Sponsors

Pediatric Growth and Nutrition Branch (PGNB), Division of Extramural Research (DER), Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD); Office of Dietary Supplements, Office of the NIH Director, NIH; Center for Food Safety and Applied Nutrition, U.S. Food and Drug Administration.
