

W. Greg Miller, Ph.D., is a professor in the Pathology Department, the director of the Clinical Chemistry Laboratory, and the director of Pathology Information Systems at Virginia Commonwealth University. He is currently the president of the Clinical and Laboratory Standards Institute, chair of the Laboratory Working Group of the National Kidney Disease Education Program, chair of the Working Group for Commutability of the International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), chair of the Harmonization Oversight Group of the International Consortium for Harmonization of Clinical Laboratory Tests, and a member of the U.S. delegation to ISO TC 212. He was formerly a member of the IFCC Working Group for standardization of thyroid function tests and president of the American Association for Clinical Chemistry. Dr. Miller has published more than 150 research papers, book chapters, and monographs, most in the area of standardizing and harmonizing laboratory testing. He received his Ph.D. in biochemistry from the University of Arizona.
